

# Super Paua Stories/Scéalta Super Paua

## Activity Sheet

### "Krys's Passport to Poland"

Krys's biggest passion is football (and Robert Lewandowski). She uses her passion to make her way to the Euros, and starts her own bilingual publication, the Polskie Post.

What are you most passionate about? Find someone to interview about something you love. Think about someone who you really look up to, or knows more about the subject than you. Or find someone who is different to you and could give you another perspective on it. Write a list of questions you might want to ask them- how they came to love this thing/area, why they think other people should know/care about it, what they'd like to know more about, or whatever you'd find interesting! Ask them to tell you more about anything you don't understand, or that you want to know more about. It's your interview so ask questions about what you find interesting!

Write up your interview and share it as a blog post, in a zine, record it to make your own podcast, or start a newspaper with your friends or siblings!

Multilingual Tip: Do you speak another language? Does the person you interview speak another language? Try interweaving your cúpla focail, or your favourite words in Polish, Farsi, or any other language into the interview or written piece!
